Subject: Microsoft Settlement

I am writing to voice my opposition to the proposed final judgement in the Microsoft anti-trust case. The judgement is just a hoop that Microsoft can easily jump through and continue it's predatory monopolistic policies. This has cost consumers enormously and will continue to do so in the future. It also will continue to slow the pace of innovation in technology.

Please reconsider the government's decision to settle.

Thank you,

Sincerely,

Zakir H. Sahul
